

Dial-A-Ride Paratransit Application

Rapid Transit System

Public Works Department

City of Rapid City

SECTION 1:

Applicant Portion Information | Page 1-2 | To be provided to the applicant

Directions: Read the following information before moving forward with the application. This information explains transportation requirements of the Americans with Disabilities Act (ADA) and identifies the features of Dial-A-Ride. Dial-A-Ride is a ride-share service provided to certified individuals who are unable to use lift-equipped, accessible, fixed-route bus service provided by RapidRide. The purpose of Dial-A-Ride is to provide equal and comparable transportation access.

APPLICATION PROCESS:

1. Applicants must complete their portion of the application form (Sections 1-6, Pages 1-12). Incomplete applications will not be processed. Applications will be considered incomplete if they have missing or improperly completed questions, pages, or sections. Applicants are welcome to enlist the assistance of a caretaker, family member or friend when completing the application.
2. Applicants are responsible for forwarding the Medical Provider Portion (Sections 7-9, Pages 13-16) to a health care provider, rehabilitation professional or medical staff familiar with their disability and functional ability to use lift-equipped, accessible, fixed-route bus service. Dial-A-Ride will not submit these pages to a provider on an applicant's behalf.
3. Applications can be printed, completed by hand, and signed before submission.
4. Applicants must ensure all portions of the application are submitted to the Rapid Transit System. Processing can only begin once RTS has received all the necessary documentation.
5. An applicant's eligibility for Dial-A-Ride services will be determined within 21 days. Incomplete applications cannot be held pending for extended periods of time.
6. Applications can be submitted by postal mail, by email, or in person. Applicants are encouraged to keep pages 1-2 of the application for their records.

FREQUENTLY ASKED QUESTIONS:

What is ADA Paratransit?

- The Americans with Disabilities Act of 1990 (ADA) recognizes that some individuals are unable to use a fixed-route bus service even if the service is fully accessible. The ADA requires that transit agencies providing fixed-route bus services must also provide complementary ADA Paratransit services. This paratransit service is for those persons whose disability prevents them from using a fixed-route bus service for some or all their transportation needs. This does not include disabilities that make use of a fixed-route transit service difficult or inconvenient. According to the law, ADA Paratransit is to "complement" the fixed-route bus service by providing service that is comparable in terms of service area, days/hours of operation, and several other factors. The specific criteria for determining who is eligible for ADA Paratransit are defined by ADA law.

What is Dial-A-Ride?

- Dial-A-Ride (DAR) is the ADA Paratransit service established by the Rapid Transit System (RTS) as the complimentary, fixed-route service, RapidRide (RR).

Is Dial-A-Ride the only transportation offered for those with disabilities?

- No. The fixed-route RapidRide system is accessible to those with disabilities and/or those using mobility devices.

Where do the eligibility requirements come from?

- The specific criteria for determining who is eligible for ADA Paratransit are defined by ADA law.

Are there different types of eligibility and approvals?

- Riders may be approved permanently or temporarily, as well as conditionally or unconditionally. Upon approval of services riders are informed of their status and provided with any additional guidance necessary. Riders who meet the criteria for service, but do not reside in Rapid City, may be approved as a visiting rider for 21 days. These days are calculated over a period of 365 days. Visiting riders will need to provide documentation and are encouraged to contact the RTS as far in advance as possible

Is Dial-A-Ride right for me?

- Only riders who meet the criteria specified by the ADA are able to use Dial-A-Ride services. Eligibility is based on necessity, not preference. Finances, driving ability, age and comfort are just some examples of situations, while difficult, are not taken into consideration during the application process. As a complimentary or “sister” service, DAR follows many of the same restrictions and is comparable in convenience in areas including wait times, length of trips, etc. to the RapidRide, the fixed-route service.

Is Dial-A-Ride free?

- Dial-A-Ride is not a free service. The cost for a ride varies from \$3.00 to \$3.50 each trip. Dial-A-Ride fares cannot be billed to insurance and a “No Fare No Ride” policy is enforced.

Is Dial-A-Ride a taxi service?

- No. Dial-A-Ride is an appointment based, ride-share service whereas all passengers are picked-up and dropped off in an order that is most efficient. Passengers will ride on the bus with others which impacts travel, arrival and departure times by as much as one hour. In addition, DAR drivers do not offer taxi-like services such as loading/unloading a rider’s belongings.

Does Dial-A-Ride provide last-minute, emergency or medical transportation services?

- Dial-A-Ride drivers are not medical providers and those having medical emergencies are encouraged to call 911 for emergency medical services. All ride requests must be made no later than the day prior by 3:30pm as DAR does not offer same-day ride requests even for urgent needs.

Where can the Dial-A-Ride buses go?

- Dial-A-Ride buses will not transport outside of City of Rapid City limits. All ride requests require a physical street address. Some locations may be inaccessible to a DAR bus for safety reasons, however every reasonable attempt will be made to transport riders as close to their location as possible.

SECTION 7:

Medical Provider Portion Information | Page 13 | To be provided to the health care provider, rehabilitation professional or medical staff

Directions:

- Applicant – Include your name on the line below and provide Sections 7-9, Pages 13-16, to your provider of choice.
- Provider – Read the following information and reach out to RTS at the contact information below if you have any questions.

Applicant's Name: _____

The above-named applicant has identified you as a health care, rehabilitation professional and/or medical provider that is familiar with his or her disability. They are applying for paratransit services and they have given us permission to contact you for additional information if needed.

The information in this application is necessary to determine which transit services the individual is eligible to use under the regulations of the federal Americans with Disabilities Act (ADA).

Before completing the next three pages, please verify that you are familiar with the applicant's functional abilities to use transit services and are aware of the following:

- All fixed-route buses operated by Rapid Transit System have wheelchair lifts/ramps to allow boarding by individuals using mobility devices as well as other riders who find use of the steps difficult. Free travel training is available to those who are unfamiliar with the fixed routes.
- The ADA has mandated that ADA Paratransit service be available to persons whose disabilities prevent their use of lift-equipped, accessible, fixed-route bus services. Aspects such as preference, comfort, difficulty, loss of driver's license, financial status or inexperience with the fixed-route are not taken into consideration.
- **Disability alone does not automatically qualify an individual for ADA Paratransit service.**

We are asking you, as a professional, to give us accurate information regarding the functional abilities of the individual named above so that we can determine whether the individual is eligible for Rapid Transit System's ADA Paratransit service.

Please complete Section 7-8, Pages 13-16, and return the documentation promptly to our office by email, postal mail or in person. You are encouraged to keep a copy of this page and the application for your records.
