

Dial-A-Ride Paratransit Application

City of Rapid City – Public Works Department

Rapid Transit System

Thank you for your interest in the Rapid Transit System – Dial-A-Ride Program. Please read this introductory material carefully. A more detailed handbook is available upon request and once approved. This information explains transportation requirements of the Americans with Disabilities Act (ADA) and identifies the features of Rapid Transit System Dial-A-Ride, which is a shared ride service provided to certified individuals who are unable to use lift-equipped accessible fixed-route bus services provided by RapidRide.

Please read this introductory information before beginning the application process.

FREQUENTLIY ASKED QUESTIONS:

- ◆ What is Dial-A-Ride?
 - It is an ADA Paratransit service for those persons whose disabilities prevent them from using regular lift-equipped fixed-route bus service. This does not include disabilities that make use of regular accessible transit service difficult or inconvenient.
- ◆ **Is Dial-A-Ride the only transportation offered for those with disabilities?**
 - No, all Rapid Transit buses, including the fixed-route RapidRide system, are accessible.
- ◆ Where do the eligibility requirements come from?
 - The specific criteria for determining who is eligible for ADA Paratransit are defined by ADA law.
- ◆ Is Dial-A-Ride free?
 - Dial-A-Ride is not a free service; the cost for a ride varies from \$3.00 to \$3.50 each trip.
- ◆ Is Dial-A-Ride like a taxi service?
 - Dial-A-Ride is a ride share service, meaning approved applicants will need to ride on the bus with others which may impact travel times.
- ◆ Are there different types of eligibility and approval?
 - There are two types of eligibility: unconditional and conditional. Unconditional eligibility is granted if your disability prevents your use of regular, lift-equipped fixed-route buses for any trips. Conditional eligibility would apply if the determination finds that there are some trips for which you can use regular lift-equipped accessible fixed-route bus service. This means that you would use

regular lift-equipped fixed-route buses for certain trips and would be eligible for Rapid Transit Dial A Ride Paratransit service for others.

- Additionally, a rider may be approved permanently or temporarily. If an applicant has a temporary disability, they may be granted approval until they become able to use alternate forms of transportation.

◆ **Where can the Dial-A-Ride buses go?**

- Dial-A-Ride buses will not transport outside of City limits. Additionally, some locations may be inaccessible to a Dial-A-Ride bus, however every reasonable attempt will be made to transport riders as close to their location as possible.

APPLICATION PROCESS:

- ◆ Complete your portion of the application form (Section I & II).
- ◆ You are also responsible for forwarding the enclosed Request for Professional Verification (Section III) form to a health care/rehabilitation professional familiar with your disability and your functional ability to use lift-equipped fixed-route bus service.
- ◆ Complete the Professional Authorization page so that Rapid Transit may contact the health care/rehabilitation professional to verify your information and to ask supplemental questions related to your ability to use regular, lift-equipped fixed-route bus service now that it is fully accessible.
- ◆ Submit all portions of the application to the Rapid Transit System. Processing can only begin once RTS has received all the necessary documentation. Your eligibility for Rapid Transit System Dial-A-Ride service will be determined within 21 days.

Dear Health Care/Rehabilitation Professional:

The above named applicant has identified you as a health care/rehabilitation professional that is familiar with his or her disability and functional abilities to use transit services and has given us permission to contact you for additional information. This information is necessary to determine which transit services the individual is eligible to use under the regulations of the federal Americans with Disabilities Act (ADA). The ADA mandated improvements to public transit services so they are easier to use by persons with disabilities. With this mandate, Rapid Transit System has made significant improvements to ensure that our regular fixed-route bus service is usable by riders with disabilities. Importantly, since the purchase of new buses in the summer of 1992, all of the fixed-route buses operated by Rapid Transit System have wheelchair lifts to allow boarding by individuals using mobility devices as well as other riders who find use of the steps difficult.

The ADA also mandated that ADA Paratransit service be available to persons whose disabilities prevent their use of regular lift-equipped fixed-route bus services. **This does not include persons who find it uncomfortable or difficult to get to and from fixed-route bus stops, as disability alone does not automatically qualify an individual for ADA Paratransit service.** We are asking you, as a professional, to give us accurate information regarding the functional abilities of the individual named above so that we can determine whether the individual is eligible for Rapid Transit System's ADA Paratransit service.

Please complete the attached form and return to our office by fax, email, postal mail or in person.
